# Nature's Gifts

This collection was inspired by hot summer afternoons spent with my family picking capers by the seaside, and also by the generosity of nature which provides us with beautiful, edible flowers, that make our dishes fun, tasty and colourful!

Hi I'm Katia, a surface pattern designer and illustrator based in sunny Sicily.

I grew up in my grandfather's farm, surrounded by all sorts of animals and with a vast expanse of luscious fields as my playground. No wonder I love nature and all its creatures!

This love is reflected in my designs which often display floral themes, animals, and insects.

Nature's Gifts is all about celebrating the beautiful gifts Nature offers us every day, from fruits to flowers. It also celebrates beautiful memories of long summer afternoons spent by the seaside, or in the countryside, collecting these fantastic gifts.

Enjoy
